Professional Summary

Senior Software Engineer, Odoo 19 Certified Techno-functional Developer and ERP Solution Specialist with 4+ years of experience in designing, developing, and implementing enterprise-grade ERP, POS, Retail, eCommerce, Insurance, HRMS, and Payroll solutions using Python, Odoo, PostgreSQL, and JavaScript.

Experienced in delivering scalable multi-company and multi-branch business applications across Retail,Insurance, Trading, HRMS, Finance, and eCommerce industries. Proven expertise in POS development, workflow automation, API integrations, payment gateway integrations, enterprise architecture, DevOps, and performance optimization.

Strong background in architecting secure and high-availability systems supporting 14,000+ active users with hands-on expertise in AWS, Docker, CI/CD pipelines, PostgreSQL optimization, and scalable ERP customization.

Core Domain Expertise

- ERP Development & Customization
- POS (Point of Sale) Development
- Retail & eCommerce Solutions
- Insurance ERP Solutions
- HRMS & Payroll Systems
- API & Third-Party Integrations
- Payment Gateway Integrations
- Inventory & Warehouse Management
- Cloud Deployment & DevOps Automation
- Multi-Company ERP Architecture

Technical Skills

ERP & Business Applications	Odoo (v12–v19), POS Development, Retail ERP, HRMS & Payroll
Programming	Python, Django, JavaScript (ES6+), XML
Database	PostgreSQL, MySQL, Redis
DevOps & Cloud	AWS, Docker, Jenkins, GitLab CI/CD, Nginx, Gunicorn
Integration & APIs	REST APIs, JWT, GraphQL, Webhooks, Payment Gateway Integrations
Methodologies	Agile/Scrum, TDD (PyTest), SOLID Principles, Code Reviews

Professional Experience

Senior Software Engineer | Tecfuge Business Solutions | May 2025 – Present

- Architecting enterprise-grade Odoo 18 Insurance ERP systems with advanced policy management, premium calculation, and third-party API validation workflows.
- Leading code quality initiatives using PEP8 standards and SonarQube static analysis integrated with GitLab CI/CD pipelines.
- Managing AWS infrastructure deployment using Docker, Nginx, and Gunicorn to ensure high availability and stable production performance.
- Optimized PostgreSQL indexing and high-concurrency workflows, significantly reducing latency for enterprise-scale document generation processes.

Software Engineer | PPTS [India] Pvt Ltd | May 2022 – April 2025

- Engineered and maintained ERP systems supporting 14,000+ active users with 99.9% uptime through monitoring and automated backup strategies.
- Developed and customized enterprise POS systems for retail businesses including inventory synchronization, barcode workflows, cashier operations, and receipt printing.
- Built scalable retail ERP workflows integrating POS, Inventory, Accounting, and eCommerce operations into centralized business platforms.
- Implemented eCommerce integrations for automated order synchronization, inventory updates, customer management, and accounting reconciliation.
- Developed secure event-driven payment connectors for Alfalah and Affirm using JWT and token-based authentication.

- Optimized legacy PostgreSQL queries and caching strategies, reducing database execution time by 30%.
- Led multi-company ERP localization projects for UAE-based branches managing complex cross-border workflows and financial operations.

Key Technical Projects

- Insurance Management System (Odoo 18): Designed scalable claims processing and automated document generation architecture.
- Retail POS Solutions: Developed customized POS modules with loyalty management, discount engines, multi-branch operations, and inventory synchronization.
- DevOps Pipeline Implementation: Automated CI/CD deployment workflows using Jenkins and GitLab for Recruitment & Payroll systems.
- API & Middleware Development: Built integrations for attendance systems, Tally accounting software, FTP automation, and payment gateways.

Industry Expertise

Retail & POS Solutions | eCommerce & Marketplace Integrations | Insurance ERP Solutions | HRMS & Payroll Systems | Financial & Accounting Automation | Warehouse & Inventory Management | Multi-Company ERP Architecture | Recruitment & Onboarding Systems

Education & Certifications

- Master of Computer Science | Government Arts College, Coimbatore (2022)
- Bachelor of Computer Applications | VLB Janakiammal College, Coimbatore (2020)
- Certifications: CAPM (Project Management), Essential Python, Essential JavaScript
- Odoo 19 Certified Techno-functional Developer
